

Cardiff Camera Club 2018 Exhibition at Llandough Hospital

Cardiff Camera Club has been in existence, almost continuously, since its formation in 1896. The club continues to go from strength to strength and we regularly attract new members. Our accommodation has improved following our recent re-location from the centre of Cardiff, to the Rumney Hub on the City's outskirts.

Each year we hold an exhibition of our work. Our exhibition is a showcase for all of our member's work, not just the "best". It is good to see beginner's work displayed alongside that of our more advanced members. It is often hard to tell which is which.

For this exhibition we have accepted the challenge of producing some unconventional work, often avoiding displaying pictures in standard rectangular frames. Only the viewer can say if we have been successful, but from our perspective, it has been great fun.

We hope you have as much pleasure viewing our work as we had producing it.

If you are interested in Photography as a Hobby please think about joining our club.

Find us at: <https://www.cardiffcameraclub.co.uk>.

You are welcome to use the website contact page to ask questions. We try to publish the year's programme on the website so you can see what we do - although it is just the bare bones of what we as a group get up to.

We meet every Thursday of the year, from 7.30pm to 9.30pm (except Christmas).

Come to: Rumney Partnership Hub, Llanstephan Rd, Rumney, Cardiff CF3 3JA

It will be great to see you.

Dean Pine
President
